

ELANIT 101

Lepilo za industriju obuće i kožnu
galanteriju

Elanit 101 je jednokomponentno lepilo na bazi sintetičkog kaučuka rastvorenog u organskim rastvaračima. Otporno je na vodu i ulje.

Tehničke karakteristike

Boja:	svetlo žuta
Viskozitet: FØ6	150-180 s
Gustina:	0,9 g/cm ³
Suva masa:	min 23%
Rok upotrebe:	12 meseci
Potrošnja:	≈ 200g/m ²

Namena

Lepilo **Elanit 101** se koristi u industriji obuće i kožnoj galanteriji za lepljenje kože, tekstila i drugih materijala, gde se zahteva kvalitetnije slepljivanje pre prošivanja materijala.

Uputstvo za upotrebu

Pre upotrebe lepilo dobro promešati. Površine koje se lepe ohrapaviti i očistiti. Pripremljene površine premazati (jednu i drugu stranu) tankim slojem lepila (kožu i porozne materijale dva puta). Sušenje traje 10-15 minuta nakon čega se površine slepljuju i presuju.

Pakovanje

Lepilo se isporučuje u ambalaži od 1, 4 i 20 litara.

Skladištenje

U dobro zatvorenoj ambalaži, na suvom mestu na temperaturi od + 5° C do + 25° C (278K -298K)

ELANIT 101

Adhesive for shoe and leather accessories industry

Elanit 101 is a one component adhesive based on synthetic rubber dissolved in organic solvents. It is water and oil resistant.

Technical characteristics

Colour:	light yellow
Viscosity: FØ6	150-180 s
Density:	0.9 g /cm ³
Dry matter:	min 23 %
Shelf life:	12 months
Consumption:	≈ 200g/m ²

Application

Adhesive **Elanit 101** is used in shoe and leather accessories industry for bonding leather textile and other materials, where there is demand for quality bonding before stitching the materials.

Instruction for use:

Stir the adhesive well before using. Surfaces must be cleaned and roughened. Apply the adhesive (on both sides of the surfaces) in thin layer (leather and porous materials twice). Allow the adhesive to dry for 10-15 minutes and after that bond it and press.

Packaging

The adhesive is delivered in packaging from 1; 4 and 20 liters.

Storage

Keep in well sealed packaging at temperatures from + 5° C to + 25° C (278K -298K)
